

PRIVACY PANELS

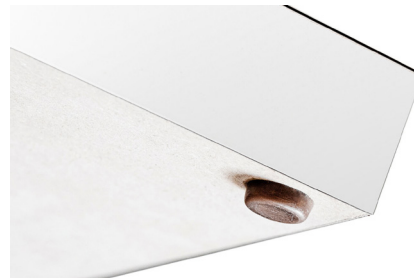

Help turn a crowded workplace into segmented, individual spaces to promote a more personal connection between you and your client. Standing 60" tall and 31" wide, public settings turn to more private settings and distractions cease. A perfect, modern solution for barbers, stylists, and cosmetologists everywhere.

Swivel Casters

These heavy duty, swivel casters come with locks to ensure that the privacy boards are always right where you need them to be. Double-ball raceways in each caster ensure that movement on surfaces like tile and linoleum is seamless, requiring little to no effort. Non-marking and quiet, swivel casters are the perfect upgrade for someone who plans to move their privacy panels frequently.

- **Hardened double-ball raceways.**
- **Non-marking and quiet. Rolls easily on tile and linoleum.**

Tack Glides

Each privacy cover comes standard with tack glides to ensure moving your cover is simple. Nylon-bases eliminate friction and noise, while round and smooth edges ensure your floor is protected from scratches. Nail-on design ensures a quick and easy install in the event that more glides need to be added in the future.

- **Nylon-base eliminates friction and noise while sliding.**
- **Round and smooth edges protect the floor from scratches.**

Add Your Brand

Pacific Panel will happily make each privacy panel unique to your business by adding your personal logo for a more personalized touch by request. If you'd like to change what logo is on your privacy panel often, we offer easily removable vinyl. Or, if you are set on having one design on your privacy panels, silk screening is also available.

- **Vinyl**
- **Silk screen**

Specifications

Each Privacy Panel is constructed out of strong birch plywood, coated in durable formica laminate, yet only weighs in at 34.5 pounds, ensuring ease to maneuver while not sacrificing on strength. Standing 60" tall and 31" wide, privacy panels offer a lot of coverage without taking up much floor space. Each base occupies 12" with a thickness of 1.75", ensuring they take up minimal floor space. 1/4" thick MDF is used, but can be manufactured in any thickness or material requested.

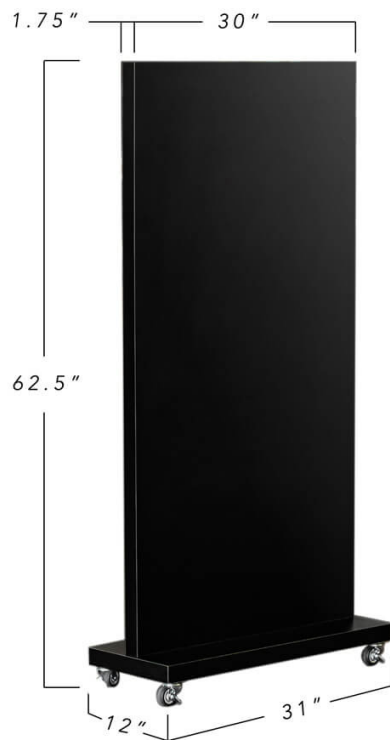

- **Birch Plywood**

- **Formica Laminate**

Stock Colors

Add even more personalization to your privacy panels by choosing a color that flows best with your workspace. Matte black or white offer a toned down look, while gloss white or black draw attention when under workplace lighting. If white or black aren't for you, custom colors are **available upon request.**
